

Not Afraid: Music and lyrics by Brittany Jean

There's a star in the night that I wait to see
Near the horizon above the city lights
Somehow I'm that star and I'm fearful to fly
Near the brightest part of the darkest midnight sky
But I've heard the things we regret in life
Are the things we didn't do just right

I'm not afraid
I cannot live
Hiding from a light
I'm not afraid
To break the mold and see how the story can be told
I'm not a... not afraid
From today
I am not afraid

There's a time everyday where it seems to me
I get lost in reveries and dreams
But it's time to make the dreams real by
Forgetting words like "shy" and "why"
'Cause I've learned the things we regret in life
Are the things we didn't do just right

I'm not afraid
I cannot live
Hiding from a light
I'm not afraid
To break the mold and see how the story will be told
I'm not a... not afraid
From today
I am not afraid

I can not live
Hiding from a light
I'm not afraid
To break the mold and see how the story will be told
I'm not a... not afraid
From today
I am not afraid
