

Turn Right: Music and lyrics by Brittany Jean

It's been a "read all about it" kind of day
In a gray, not-good kind of way
You picked me up and you can tell I've had about enough
And you said, "Hey, I can take you back home
If you'd really rather be alone...

Or we can drive down to Chelan
We can walk by the shore
See a movie at the Ruby where they sometimes tell you all you're gonna see...
Before you do
Get a little live, local music
All I'd have to do is turn right"

I thought *Cinderella* turned my day around
So sweet—just like this little town
And suddenly I realize your love is just my size
And I said, "Hey, I don't wanna go back home
I'm not ready yet to let this feeling go..."

We can drive down to Chelan
We can walk by the shore
See a movie at the Ruby where they sometimes tell you all you're gonna see...
Before you do
Get a little live, local music down Woodin Avenue
Turn right

We were laughin'
We were havin' so much fun
We should do it all again

We can drive on down to Chelan
We can walk by the shore
See a movie at the Ruby where they sometimes tell you all you're gonna see...
Before you do
Get a little live, local music down Woodin Avenue
Turn right

We should do it all again
We should do it all again
We should do it all again
And we will
We will
