

Wildfire: Music and lyrics by Brittany Jean

Fire coming down the mountainside
I'll hear the wind chimes sing all night
When the lights go out
Neighbors are watching side by side
It's snowing ash in mid-July
When the stars go out

The timber's gone
But we are stronger than our fear
The homes we built are burning down
To the ground
To the ground

Wildfire raging through our town
The sheriff says we gotta get out
I can't believe it's real
Man on his rooftop prayin' songs
Our men on the mountain all night long
With nerves of steel

Take the pictures off the walls
Save all you can
Call your folks and let them know
We're okay
We'll be okay

The timber's gone
But we are stronger than our fear
The homes we built are burning down
To the ground
To the ground

The timber's gone
We're stronger than our fear
The homes we built are burning down
To the ground
To the ground
Rain coming down the mountainside
I'll hear the wind chimes sing all night
